Annie McDonnell: "Trumpeter Swans" & "A Small, Small Mammal Survey"

Emily Heald: "Dragonflies" & "Lake Clarity & Monitoring"

Bruce Bacon: Virtual Bird Banding Demonstration

And More!

Thank You Sponsors!

Your Participation is KEY!

Help us keep the tradition and data alive! We encourage all participants to engage with the outdoors throughout the festival; walk your favorite trail, paddle a lake, or watch the birds in your own yard or at your bird feeder (please practice social distancing guidelines). Post your bird and wildlife sightings and outdoor experiences in the Comment section of our webpage, and watch for updates from your fellow bird & wildlife enthusiasts! Staff and Volunteers will be posting their sightings from local birding hotspots throughout the weekend, and will be available to answer questions about our flora, fauna, and landscape.

All registrants will receive an email confirming their registration for the online event. On June 5th at 10am you will receive an email with the link to the Festival webpage and access to all of the online content, including over 10 hours of programs by local experts. All of the videos will be available for you to watch and enjoy until June 15th, so feel free to take your time and watch them when it's convenient for you. All questions and inquiries can be sent to Annie McDonnell: annie@discoverycenter.net or 715-543-2085, extension 4
